

How much does a 15 kW solar system cost?

Given that the average cost of solar in the U.S. is \$2.75 per watt, a 15-kilowatt system will cost about \$41,250, with the 30% federal solar tax credit reducing the cost to around \$28,875. How much does a 15 kW solar system cost in your state?

What is a 15 kW solar system?

These 15 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions. These are complete PV solar power systems that can work for a home or business, with just about everything you need to get the system up and running quickly.

Can a 15kW solar system make money?

The beauty of solar energy is that you can actually generate a profit from it. With a 15kW solar system, any excess electricity that you generate but don't use can be sold back to the grid. This means that you can earn money from the power you produce. With current electricity costs, you can expect a 20% return on your investment per year.

Does SunWatts offer a 15 kW solar system?

SunWatts has a big selection of affordable 15 kW PV systems for sale. These 15 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions.

How much energy does a 15 kilowatt solar system produce?

State and local incentives can further lower your expenses. A 15-kilowatt solar panel system produces between 16,404 and 26,468 kilowatt-hours (kWh) annually, depending on where you live in the country - far more than the 10,791 kWh the average American household uses in a year.

How long does a 15 kW solar installation last?

Solar installations typically last 20 to 30 years, so we'll say that our 15 kW installation will produce electricity for 25 years. Solar panels typically drop in efficiency about .08% each year, so at the end of 25 years, our 15 kW installation will have produced 319,596 kWh total.

15kW Solar Panel System Price. The typical cost for a 15kW solar system is around \$30,000. However, it is worth noting that the prices of solar panels have decreased significantly over the past decade. This decrease ...
