

A large number of photovoltaic panels for sale scam

What are the most common solar panel scams?

Here are some common solar panel scams to look out for. Fake solar companies: Perhaps one of the most common solar scams involves creating a fake company and "selling" solar panel systems without any intention of ever installing them. These fake companies may request a large upfront deposit and then disappear before ever completing any work.

Is going solar a scam?

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar panels. Here's how to steer clear of the scams: Do some research.

Are free solar panels a scam?

Remind prospective customers that while tax credits, rebates, and incentives might be available for solar purchasers who qualify, offers for "free" or "no cost" solar panels are scams. Comply with the law: old and new. Reputable companies know the importance of being honest about what they're offering - and how much it costs.

Are solar leases and PPAs a scam?

No, not all leases and PPAs are scams. However, they seem to be a breeding ground for deceptive and predatory practices, including the old "government is paying people to go solar" scam. Related reading: Solar Leases vs. Solar Loans vs. Solar PPAs

How do you know if a solar system is a scam?

Ask for a list of satisfied customers and look at customer reviews online. Know that the government won't offer you free solar. The federal government does not install residential solar panels for free; if someone is claiming otherwise, it's probably a scam. If it seems too good to be true, it probably is.

Can a government or utility official sell solar panels?

Now, any government or utility official trying to sell you solar panels should raise a red flag because governments and utilities don't sell or install solar panels. The bottom line is that there are solar incentives that can help reduce the cost of going solar.

There are now 1.5 million solar panels on homes across the UK. As well as saving you money on energy bills, solar panels can earn you cash. And don't worry, they can still generate electricity on gloomy days, vital when ...
