

Who is Absen Energy?

Empower your resident smarter, greener, and safer. Reliable Energy, Wise Choice for Your Business. Absen Energy is a professional energy storage product supplier based in China. Our products are sold worldwide, committed to bringing green energy benefits to every individual, household and organization.

What can Absen Energy offer for me?

Absen Energy offers multi-scenario energy storage solutions for the user side, as demonstrated in their booth setup. In the field of energy storage, Absen Energy provides a wide range of products.

What is Absen Energy's new outdoor energy storage integrated cabinet?

Absen Energy debuted its new outdoor energy storage integrated cabinet. The booth showcased industrial and commercial energy storage solutions to fully demonstrate the various application scenarios of its new outdoor energy storage integrated cabinet.

With Absen Energy C&I ESS AX3440, Cube 215, Cube 230 and Cube 232, the total installed photovoltaic capacity reaches 2.84MWp, and the energy storage power station reaches 4.5MWh. It is equipped with six 7kW AC charging piles and two high-efficiency dual gun 120kW DC charging piles, which can provide charging services for 10 vehicles at the same ...

These innovations result in reduced carbon dioxide emissions equivalent to nearly 14 million trees absorbing CO<sub>2</sub> in a single day. Absen is committed to creating energy-saving, eco-friendly products that contribute to carbon neutrality and ...

Absen Energy is a professional energy storage product supplier based in China. Our products are sold worldwide, committed to bringing green energy benefits to every individual, household and organization. Home Products. Commercial & Industrial. Residential. C&I Solutions. Smart Farm. Commercial Complexes.

Absen is committed to creating energy-saving, eco-friendly products that contribute to carbon neutrality and reduce harmful gas emissions. All Absen products comply with the EU's RoHS 2.0 directive and WEEE regulations, as well as safety standards such as CCC, CE, UL, ETL, OHSMS eye protection health standards, and electromagnetic compatibility ...

Absen's Cube air-cooled battery cabinet is an innovative distributed energy storage system for commercial and industrial applications. It comes with advanced air cooling technology to quickly convert renewable energy sources, such as solar and wind power, into electricity for reliable storage. The air-cooled cabinet is a cost-effective, low maintenance energy storage option.

The project adopts the Absen Energy Cube200 energy storage integrated cabinet integration solution, which

includes a total of 2 arrays and 11 energy storage products. The entire project is jointly constructed in the EMC model, and the owner only needs to provide the project installation site to obtain energy storage benefits with "0" investment.

Absen's Cube air cooling battery cabinet is an innovative distributed energy storage system for commercial and industrial applications. It comes with advanced air cooling technology to quickly convert renewable energy sources, such as solar and wind power, into electricity for reliable storage. The air cooling cabinet is a cost-effective, low maintenance energy storage option.

Absen's Pile LV is a low-voltage stackable battery for high-performance residential energy storage. Featuring an advanced LiFePO4 (LFP) solution, it has excellent battery management capabilities for quick charging and discharging, suitable for a wide range of application scenarios. The product comes with an intelligent management system for precise control and remote ...

Absen Energy was invited to attend and won the "2023 China Energy Storage Industry Rookie" award in the "Light Energy Cup" energy storage industry selection. This award is an affirmation of Absen Energy's technological advantages and innovation capabilities, and is also an industry-leading award. Recognition of the strength of the Absen Energy ...

Absen's Pile S is an all-in-one energy storage system integrating battery, inverter, charging, discharging, and intelligent control. It can store electricity converted from solar, wind and other renewable energy sources for residential use. Pile ...

From October 17th to 19th, Solar & Storage Live 2023 was grandly held at the NEC Convention and Exhibition Center in Birmingham, England. Absen Energy made a grand debut with household energy storage system solutions and industrial and commercial storage scenario system solutions, highlighting Absen New Energy's commitment to High attention to the UK ...

The Balcony Plug and play Energy storage system is designed for All in One style. With an elegant appearance, it not only is compact, lightweight but also supports self-consumption and grid feedback with a hybrid system. The Balcony S features a high-performance LFP battery, ensuring a long cycle life, enhanced safety, and efficient charging and discharging.

Absen's Rack type battery can store electricity converted from solar, wind and other renewable energy sources for residential use. Compared with other residential batteries, the rack type residential battery allows high cost-effectiveness solution.

Absen Energy has been actively developing the South African energy storage market. At this exhibition, it focused on launching core products such as the Pile S series, Rove series inverters and Ebox energy storage battery series focusing on "Plug and Play". Advanced technology and safer, more stable and reliable products have brought more ...

Absen Energy EV charging energy storage system solutions effectively balance the power load through peak shaving and valley filling. Supporting a variety of working modes, adapting to harsh outdoor environment. Comprehensive ...
