

Who is accuenergy?

Accuenergy manufactures and designs industrial power and energy meter solutions. This also includes a variety of current transformers, hall effect sensors, energy management software, data acquisition communications devices, and much more. Join our mailing list to receive exclusive offers, product updates and more!

Where is accuenergy located?

In order to serve energy markets worldwide, Accuenergy's global footprint now spans multiple countries. In addition to the Toronto, Canada headquarters, Accuenergy has offices located in the El Segundo (United States), Xi'an (China) and Pretoria (South Africa).

What is accuenergy metering?

Dedicated to becoming a "one stop shop" for metering solutions, Accuenergy launches its first line of high-precision current transformers. Tasked with advancing metering technology, Accuenergy's first R&D Centre was established. Soon after, all products became fully CE and UL certified for export throughout Asia, Europe, and North America.

Why did accuenergy relocate its headquarters?

Accuenergy has relocated its headquarters to a new facility to better serve its growing business. Now with a total of 150,000 square feet of space to accommodate company expansion, our modernized headquarters fully supports our R&D, engineering, customer service, and shipping operations.

When did accuenergy start?

When Accuenergy was founded in 1998, dozens of meter manufacturers were flooding the market with devices that were bulky, complex, and expensive. Built on technology from the 1970s, most meters were simply too antiquated to be useful in modern building control applications.

Is accuenergy ISO 9001 certified?

With a commitment to continuous improvement and dedication to delivering products that exceed customer and regulatory requirements, Accuenergy was proud to be ISO9001 certified by TUV Rheinland. Dedicated to becoming a "one stop shop" for metering solutions, Accuenergy launches its first line of high-precision current transformers.
