

Can I install my own solar panels?

Although DIY options are available, hiring a professional solar company is best to ensure your panels are correctly and safely installed. Yes, it's possible to install your own solar panels. However, DIY installations require electrical skills and advanced knowledge of solar energy that most DIYers don't have.

Should you hire a certified solar panel installer?

Your solar panel system installation should be quick, efficient, and minimally disruptive to your life and home. To make sure your panels go up without too much fuss - and are set up to generate the most electricity possible - you should hire an accredited, certified installer, like Sunsave.

How do I prepare for a solar panel installation?

Installing solar panels helps homeowners save money and invest in cleaner energy. To prepare for an installation, determine your energy needs and home compatibility with a solar panel system. The installation requires complicated electrical work and paperwork that any reliable solar installer can handle.

How long does it take to install solar panels?

The installer will then install the solar panels to the racking and connect the electrical wiring. They'll also install any additional equipment, such as an inverter or battery bank. Many solar installers can complete installation in just one day. More complicated installations can take three or more days.

How do I choose a solar installer?

Choose a solar installer. An installer can help you determine whether your roof is suitable for solar panels. Begin by researching qualified, insured installers online or asking for recommendations from people who've gone solar. Comparison-shop by asking multiple installers to come assess your roof.

What is a do-it-yourself solar installation kit?

Several solar panel manufacturers offer do-it-yourself (DIY) installation kits for solar projects. These kits include solar panels, inverters, wiring, and other needed equipment. There are also solar panel kits for smaller installations, such as on a recreational vehicle (RV), small garage, or shed.
