

What is American Lithium Energy?

American Lithium Energy (ALE) is shipping the world's highest energy density silicon-based lithium-ion batteries with industry best safety and zero-volt stability. Existing lithium battery technologies cannot meet the rapidly growing demand for more powerful, longer-lasting, smaller, and safer batteries.

Where is American Lithium Energy headquartered?

ALE is headquartered in Carlsbad, California, USA where it performs all research, development and manufacturing operations in state-of-the-art facilities. Get to Know American Lithium Energy - Our Vision, Mission, and Commitment to Advancing Sustainable Energy Solutions. Learn About Our Journey Towards a Greener Tomorrow.

Why should you choose American lithium?

American Lithium is well-positioned to play a key role in society's shift to a secure, sustainable new energy paradigm in the Americas. With a focus on Nevada and Peru, the company has the advantage of both geographic and geological diversity in developing world-class, scalable projects.

Will American lithium voluntarily delist its shares?

American Lithium has notified Nasdaq of its intention to voluntarily delist the American Lithium Shares.

Is Falchani lithium project sustainable?

Studies show that no protected plant or wildlife species are impacted by our operations. Our advanced-stage Falchani Lithium Project is the 6th largest hard-rock lithium deposit in the world. Falchani benefits from a highly sustainable business model in a geopolitically "friendly" jurisdiction within Peru.

When is the last trading day of American lithium shares?

As a result, the last trading day of the American Lithium Shares on the Nasdaq Capital Market will be December 27, 2024. The American Lithium Shares will continue their listing on the TSX Venture Exchange and the Frankfurt Stock Exchange.
