

What is aldelano solar solutions?

Aldelano Solar Solutions' solar air to water technology has the power to bring clean drinking water to areas of the world without access to other solutions such as wells or sanitary water systems.

What is the aldelano solar ColdBox?

The Aldelano Solar ColdBox is an industrial-grade, portable, solar-powered cold storage mini-warehouse that can run both on and off grid. Fill out the form below for more information. How did you hear about us?

What is aldelano solar watermaker TM?

The Aldelano Solar WaterMaker TM is a freshwater generator that can keep women and girls in third world countries from walking miles for water each day and aid in the elimination of water-borne diseases in local communities. Models range from 30 to 1000 gallons per day**In ideal conditions of 80°F (26.7°C) and 80% relative humidity

The Aldelano Solar WaterMaker TM is an atmospheric water generator that can be powered solely by the sun or the grid. This freshwater generator pulls moisture from the air to produce clean drinking water. On our off-grid model, the solar panels not only power the Aldelano Solar WaterMaker TM during the day but also charge the battery. This ...

Aldelano uses innovative technology to pull water molecules from air using solar power. This sustainable system is able to provide a constant source of water and electricity. The science behind our Solar ColdBox along with our Solar ...

At Aldelano, we are dedicated to helping provide life-sustaining cold storage solutions to those in need, anywhere in the world. Our products are off-grid and require little to no maintenance. Our advanced technology in solar refrigeration allows us to provide those in need with cold storage and renewable power. We have spent several years ...
