

What services does loop energy offer?

Loop Energy also provides complete fuel cell systems, which include an eFlow powered fuel module, DCDC and cooling system for seamless integration. We offer this to support customers in their transition to fuel cells and to try to remove barriers around integration and vehicle design. Q In which segments are you most active?

What types of fuel cells does loop energy offer?

Loop Energy offers a range of fuel cell modules and systems, each powered by our proprietary eFlow(TM) PEM fuel cell stacks. Our fuel cells serve light- to medium-duty applications as well as heavy-duty applications. Our product range includes 30, 50, 60, and 120 kW fuel cell offerings.

What is Loop Energy's mission?

Loop Energy's mission is to be "the engine driving zero-emissions". Continuing to push the boundaries and innovate is at our company's core. Q What is your role in the company?
