

How many ports does the allpowers R1500 have?

See more ?11 Ports Charge All Needs Simultaneously?: The ALLPOWERS R1500 portable power station has 4* pure sine wave AC outputs (110V 1800W, peak 3000W), 2* 100W USB-C & 2* 18W USB-A fast charging port, 2* 15W Wireless charger, 1* car cigarette lighter (12V/10A).

What is allpowers R1500?

What is it? The ALLPOWERS R1500 is a portable home backup power station, capable of serving as an uninterruptible power supply or in any capacity where power is needed around the house. In the R-series the 1500 is the bigger brother to the smallest R600, with the range going all the way up to the R4000.

What are the features of the allpowers R1500 power station?

Other notable features of the ALLPOWERS R1500: Out of the box, there isn't really much to do to up and running with the ALLPOWERS R1500 power station. Pressing the power button will turn on the display which is helpful to see status at a glance.

How much power does a R1500 have?

12V/10A, 120W Max. Experience unparalleled performance with its massive 1152Wh capacity and powerful AC output of 1800W (3000W peak). This powerful power station is ready to provide reliable backup power for your home. Whether it's a stormy night or scheduled maintenance, the R1500 has what you need.

How much does a R1500 power station weigh?

At 37lbs, the R1500 isn't the lightest power station out there in the portable class, but its capacity and output capability make up for the extra weight. At the top of the power station are two 15W wireless charging pads. While the power station can be used outside if the weather permits, it's not water proof and should be kept dry.

Is a R1500 a good power station?

The R1500 by ALLPOWERS isn't their biggest power station, but it's enough to save the contents of our fridge in a power outage without running the generator. As a UPS, it's well suited to cover your computer equipment and peripherals, though it is detracted by a sub-par app experience.
