

In pursuit of a targeted 30% renewable energy by 2030, the Government of Anguilla borrowed \$2.3 million USD to fund the installation of 1 MW of solar. This project will allow the Anguilla Electricity Company Limited (ANGLEC) to monitor the impact of the introduction of intermittent renewables into the energy matrix.

You may not have known it, but if you reside in Anguilla you've been consuming renewable energy for over a month now. Anguilla Electricity Company, LTD (ANGLEC) recently completed construction of its 1

megawatt (MW) solar plant which was integrated into ANGLEC's power grid - after a series of tests - on May 21st, 2015.

Anguilla has a high solar potential and set a renewable energy mix target of 30% by 2030. Presently Anguilla's energy mix is comprised of only 4% renewable energy. Its electrical demand peaks at 16MW and its electricity prices are high relative to the rest of the Caribbean.

The solar PV plant is CDB's sixth intervention in the energy sector in Anguilla, and supports the Government of Anguilla's goal of transforming the country into a low carbon economy. The country has set a national target of producing 30 percent of its electricity from renewable sources by 2030 and cutting greenhouse gas emissions.
