

Are photovoltaic panels installed free of charge by the manufacturer

Are solar panels free?

When companies advertise "free solar panels" or "no-cost solar programs," they're often referring to solar leases or solar PPAs. Under these solar financing arrangements, a solar company will put a solar panel system on your roof at no up-front cost for installation, enrollment, or maintenance. This sounds great.

Does the federal government offer free solar panels?

The federal government does not provide free solar panels, but does provide incentives that reduce the cost of going solar. You can go solar with no upfront cost by taking out a \$0-down loan, signing a lease or PPA, or subscribing to a community solar farm. Of the no upfront cost solutions, \$0-down loans provide the best long-term savings.

Are 'free' solar panels a scam?

If you are in the market for solar, you may have seen ads from companies offering "free" solar panels. While these offers are not necessarily scams, they can be misleading. Solar panels are never free, but may not require a down payment when purchasing them if you are financing using a solar lease or PPA.

Do you own solar panels with a "no cost solar" agreement?

You will not own the solar panels with one of these "no cost solar" agreements. In other words, solar leases are essentially like renting solar panels. The solar company handles all of the installation and maintenance for a specified term, which is usually around 20 to 25 years.

Are "free" solar panels a good idea?

The concept of "free" or "no-cost" solar panels really is too good to be true. "Free" solar panels are essentially rented from solar companies. While you will reap the benefits of cheaper electricity bills through solar power, you do not own the panels; the solar company does. Once your lease agreement is up, the panels will be removed.

What do solar companies mean by 'free'?

What Do Solar Companies Mean by "Free"? When companies advertise free solar, they are generally referring to either a solar lease or solar power purchase agreement (PPA). In both cases, a company installs solar photovoltaic (PV) panels on your home, often with no up-front costs and no money down.
