

What is an energy activator in the first descendant?

Energy Activators are essential items in The First Descendant (TFD) that increase the capacity of your Descendants and weapons. Here's a simplified guide to help you understand and use them effectively. What is an Energy Activator? Purpose: Increases the max capacity for modules on a Descendant or weapon.

How do energy activators work?

In the First Descendant Energy Activators are one-time use items you can use to increase the Maximum Module Capacity of either a Descendant or a weapon. Using an Energy Activator on a Descendant will increase their module capacity by 20. Additionally, using an Energy Activator on a weapon will increase its module capacity by 30.

How do I get energy activator?

Learn how to get Energy Activator, as well as how to use it in this guide. Energy Activators are used to increase the Module Capacity of Descendants and Weapons. You can do this by opening the Modules menu of any Descendant or Weapon, select Module Additional Settings on the top right, and then choose the Max Capacity Up option.

Where can I buy energy activators?

Purchase: You can buy Energy Activators in the in-game shop. Increase the capacity of modules for your Descendants, allowing more powerful setups. The extra capacity makes a big difference, especially if you use it on a Descendant you frequently play. The capacity increase (+20) is the same no matter when you use it, whether at level 1 or level 40.

Can You farm energy activators in the first descendant?

Forget heroes, there is no more important thing in The First Descendant to farm than Energy Activators, which expand module slots for your characters and guns and are exceptionally rare, given the materials involved. You can craft these, but at least one of the pieces will require an incredible amount of luck.

How do you get energy activator blueprints in the first descendant?

Unfortunately, getting the Energy Activator Blueprints will be one of the more difficult grinds in The First Descendant because you have to grind two separate things. First, you need to collect an Amorphous Material Pattern that corresponds with the Colossus boss you wish to try farming the blueprint from.
