

Energy taxation measures. Regarding electricity taxation, energy-intensive enterprises will be granted support against price increases until 31st December 2023, with the help of the so-called "peak compensation for electricity" (#167; ...

In the wake of the energy crisis, the European Union and national governments have implemented various fiscal measures to relieve the strain on economies and help EU industries and citizens deal with rising energy prices. Tax is one of the most effective short-term solutions to level the playing-field whenever energy prices soar.

Hydro, geothermal, tidal and ocean energy for example. Oil & Gas. Burnt to generate electricity or refined for fuel. Nuclear Energy. ... News about WTS Energy and industry insights worth sharing.
