BaaS(Battery as a Service????)?????????????????????????EV(Electric Vehicle??????)?????????????????????????????EV????????4???? ...

Batteries not included. That"s the idea behind Chinese car company Nio"s Battery as a Service (BaaS). Enabled by easily swappable battery technology and standardization of battery packs between the company"s model line-up, the battery subscription service reduces the vehicle price by about $10,000, bringing that price below a similar ICE vehicle.

What Exactly is a Battery-as-a-Service Program? The BaaS program separates vehicle ownership from battery ownership which helps companies offer the vehicles at a lower price tag. When a customer buys an EV under the Baas Program, they have to subscribe to rental service based on km"s and battery swapping service, depending on the brand.
