

Why did we install solar & battery storage systems on Christmas Island?

Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park. We installed solar and battery storage systems at two sites on Christmas Island for Parks Australia to provide clean power to their main headquarters and research field station.

Does Christmas Island National Park have solar & battery storage?

Solar and battery storage for Christmas Island National Park. Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park.

Can solar power a seed cleaning shed on Christmas Island?

As part of a scientific research focusing on agriculture on exhausted mining areas, a seed cleaning shed on Christmas Island is being powered by solar+storage.

Why should you choose An islanded Solar System?

On the one hand, it will enable you to continue to power your home with locally-produced solar generation even in the event of a grid outage. On the other hand, an islanded system has no risk of pushing excess electricity onto the grid, making it safe for utility workers to work to restore regular service.

Did Christmas Island propose a wave generator?

This is all a bit late, and sad, several years back the residents of Christmas Island proposed a wave generator and had and were denied the opportunity and so now at the 11th hour they propose a poor cousin.

Are solar inverters 'anti-island'?

All inverters are required to be able to be "anti-island." In other words, solar inverters are explicitly designed not to allow your solar panels to continue to push electricity into your home in the event of an outage.
