

What is a 2modulys XM - socomec modules XM?

2MODULYS XM- SOCOMEC MODULYS XM Ultra-reliable and flexible UPS- built to last Up to 600 +50 kW As flexible as it is reliable,the MODULYS XM - a medium power modular UPS - can be configured to order. Automatic firmware alignment and self-setting

How much power can a modulys GP provide?

The installed power can be increased up to 200 kWby adding hot-swap plug-in power modules for incremental steps of 25 kW. Designed with no single point of failure,the MODULYS GP offers all the advantages of the Green Power 2.0 technology. Fully redundant architecture for maximum availability,minimum MTTR and risk free maintenance.

How much power does XM-socomec have?

10MODULYS XM- SOCOMEC MODULYS XM Power 250 +50 kVA/kW600 +50 kVA/kW Module power 50 kW (up to 40°C; ambient temperature) Number of power modules 1 to 6 2 to 13 Input /output 3/3 INPUT Voltage 400 V 3ph+N (340 V to 480 V) Frequency 40/70 Hz Power factor /THDI > 0.99 /< 1.5% OUTPUT

What is socomec - models xM7?

SOCOMECS - MODULYS XM7 High short-circuit solution on-demandThe MODULYS XM maintains compatibility even in situations where the short-circuit current exceeds its standard rating,demonstrating robustness and reliability when handling unexpected abnormal events and electrical loads.

What is socomec - models XM9?

SOCOMECS - MODULYS XM9 Expert services Manufacturer's maintenance for trouble-free UPS operation Our service contracts are tailored to customer needs, taking into account individual operational constraints, business processes and the unique level of criticality associated with specific applications.

Why should you choose modulys XM?

Ensuring the highest level of availability and reliability while reducing the Total Cost of Ownership, MODULYS XM - combined with the Socomec lithium offer - provides you with an optimised package to meet your installation constraints and free up space for revenue generating equipment. Compatible with Li-Ion battery technology

With the same system solution, MODULYS XM is able to meet every cabling need. Top cabling? Bottom cabling? A mix of top-bottom cabling? MODULYS XM is ready! BATTERY OUT IN/AUX Thanks to our standardised, pre-engineered parts, you have the flexibility to customise your UPS system, even last minute on-site,

With its flexible modularity providing seamless and risk-free power scalability up to 100 + 25 kW, the MODULYS GP-UL range is the ideal solution for unscheduled site upgrades or incremental power evolutions. The installed power can be increased up to 100 + 25 kW by adding hot-swap plug-in power modules for incremental steps of 25 kW.

With its flexible modularity providing seamless and risk-free power scalability up to 200 kW, the MODULYS GP range is the ideal solution for unscheduled site upgrades or incremental power evolutions. The installed power can be increased up to 200 kW by adding hot-swap plug-in power modules for incremental steps of 25 kW.

As flexible as it is reliable, the MODULYS XM - a medium power modular UPS - can be configured to order. This smart and modular system has been designed with longevity in mind. With a proven design life of more than 20 years, it's built to last.

the MODULYS GP range is the ideal solution for unscheduled site upgrades or incremental power evolutions. The installed power can be increased up to 200 kW by adding hot-swap plug-in power modules for incremental steps of 25 kW. Designed with no single point of failure, the MODULYS GP offers all the advantages of the Green Power 2.0 technology.

Mit ihrer flexiblen Modularit t bietet MODULYS GP unterbrechungs- und risikofreie Erweiterbarkeit der Leistung bis zu 200 kW und ist damit die ideale L sung f r spontane Leistungsaktualisierungen oder planm  igige schrittweise Leistungsupgrades vor Ort.

Based on the latest technology, the Socomec Li-Ion battery UPS enables a faster recharge than lead-acid systems, maximising the system's power availability. Available for the MODULYS GP range, the Li-Ion battery UPS is ideal for unscheduled site upgrades or ...

MODULYS XL is a modular UPS system designed to provide high performance and power scalability. Power scalability can be by adding power blocks of 200 kW (Power module) to extend the system up to 1200 kW or less, according to the maximum power requirement. Systems can be parallelised to increase the rated power up to 4,8 MW

The MODULYS XL is a modular UPS based on 200 kW power modules. The power of a single UPS unit can be increased up to 1200 kW and the system can include up to 4 units in parallel. The innovative MODULYS XL concept allows for the constant protection of the load in online mode, whether to respond to load growth or to manage all aspects of the ...
