

How can solar panels be used in Bermuda?

Deploy solar panels in discrete locations to meet Bermuda Government and satisfy listed building planning regulations. Optimize available ground space and create economies of scale while effectively addressing aesthetic considerations. Construct a dedicated facility designed for solar installation that doubles as a shade provider or carport.

Who is Bermuda Engineering Company Limited?

Bermuda Engineering Company Limited was founded in 1935 by Gordon Hamilton Burland, a Bermudian renewable energy pioneer and engineer. Back then, he built the first clean energy microgrid in Bermuda and demonstrated bold energy leadership for his time. In 2010 the company was reinvigorated and has been operating as BE Solar since.

Does the SolarEdge home battery need a separate inverter?

We'll talk more about this below. The SolarEdge Home Battery is part of a DC-coupled ecosystem, meaning you won't need to buy a separate inverter for the battery and your energy is only converted once from storage to your house, instead of three times with an AC-coupled system. This makes your system more efficient.

How long does a battery last on a SolarEdge home inverter?

Your battery is covered for 10 years and will be able to maintain at least 70% of its original capacity by the end of your warranty. The Home Backup Interface and SolarEdge Home Inverters also come with 12-year warranties. Years covered: This is the length of time your battery is covered under warranty.

What is the warranty on a SolarEdge home inverter?

It's rare to see this on the battery market. The other major aspects of the warranty are industry-standard. Your battery is covered for 10 years and will be able to maintain at least 70% of its original capacity by the end of your warranty. The Home Backup Interface and SolarEdge Home Inverters also come with 12-year warranties.
