

NanoSSOC sun sensor is based on MEMS fabrication processes to achieve high integrated sensing structures. NanoSSOC-A60 has tiny size, low weight and low power consumption to be the perfect ADCS sensing solution for nanosatellite ...

Solar MEMS has established itself as one of the leading suppliers of solar sensors in the global aerospace market. It's technology is used in over 40 countries and it is collaborating with the ...

NanoSSOC sun sensor is based on MEMS fabrication processes to achieve high integrated sensing structures. NanoSSOC-A60 has tiny size, low weight and low power consumption to be the perfect ADCS sensing solution for nanosatellite platforms.

Solar MEMS is a Spanish technological-based company, specialized in Micro Electro Mechanical Systems technology (MEMS) and its application to the design and development of high accurate sun sensors for space and other high technology markets.

el tel&#233;fono de solar mems technologies sl es 954460113. el cif de solar mems technologies sl es b91794131. solar mems technologies sl se constituy&#243; el d&#237;a 26/01/2009 con ...

Solar MEMS Technologies (SMT) is a technology-based SME specialized in microsystems technology (MEMS) and its application to the development of high accuracy sun sensors and control systems for the Space sector and other high-tech applications.

Solar MEMS Technologies S.L. is a technology-based company specialized in the Micro Electro Mechanical System technology (MEMS) and its application to the Space industry. It was created in 2009 as a spin-off of the School of Engineering, University of Seville (Spain).

At SOLAR MEMS, we are committed to designing and developing state-of-the-art solar sun trackers and control systems. We offer a wide range of sun sensors, known as Industrial Sun Sensors (ISS), specifically designed to measure the incident angle of ...

Solar MEMS has established itself as one of the leading suppliers of solar sensors in the global aerospace market. It's technology is used in over 40 countries and it is collaborating with the main actors in this sector, such as NASA, ESA and Airbus OneWeb Satellites.

Solar MEMS Technologies (SMT) is a technology-based SME specialized in microsystems technology (MEMS) and its application to the development of high accuracy sun sensors and control systems for the Space ...
