All of our Enphase solar systems are designed to have Enphase batteries installed now or in the future. We ensure that your property is prepared for the safest, most reliable and powerful battery system on the market by installing hardware that is ready for battery integration.

By partnering with Maxeon as their exclusive dealer in Bermuda, AES is the only solar company on island equipped to install the world's most durable and efficient panels. Our partnership with Maxeon allows us to maximizing savings and the return on investment for our customers.

Of course, solar energy is produced during the day so when electricity is needed to power a house at night, or on cloudy days, solar homeowners must buy it like everyone else. But the rate of purchase can be ...

This system ranges in size from 6.6kWh up to 40kWh at a cost of \$25,100 up to \$84,511, respectively, and can be installed either inside or outdoors. These costs only cover the battery system, not the solar panels. If you can't afford both at the same time, batteries can be installed at a later date.

Of course, solar energy is produced during the day so when electricity is needed to power a house at night, or on cloudy days, solar homeowners must buy it like everyone else. But the rate of purchase can be anywhere from 30% to 100% (although that is unlikely) higher than the rate to sell.

The electrical output of the solar system mostly depends on the installed capacity and the efficiency of the module used. The most commonly used types of solar modules are the Polycrystalline silicon and Monocrystalline silicon. The cost of installing a kilowatt in Bermuda is around \$4,000 to \$6,000.

A 4 Kw solar array consisting of 12 panels will give you a savings of about \$1,200 to \$1,500 per year. If you are using a lot of power and you are in the higher rate band then these savings can be much higher. Get in touch with us to ...

A 4 Kw solar array consisting of 12 panels will give you a savings of about \$1,200 to \$1,500 per year. If you are using a lot of power and you are in the higher rate band then these savings can be much higher. Get in touch with us to determine specifics.
