

How many BW ESS projects are there in Italy?

BW ESS and ACL Energy have announced an expansion of their stand-alone BESS project portfolio in Italy, bringing their total development pipeline to 14 projects representing 2.9 GW of capacity across Italy's North and South electricity zones.

What is a Bess energy storage system?

BESS, or battery energy storage systems, are an essential element of the energy transition: the Enel Group is playing an important role in the growth of the sector, in Italy and in the other countries where it is present. There can be no real energy transition in Italy without electricity storage systems.

How many Bess are there in Italy?

Enel Green Power currently has 26 BESS in Italy: 15 of them are in operation, with a total capacity of about 800 MW, while 11 are under construction, and their completion will bring the total capacity to about 1.8 GW.

When will a Bess plant be built in Italy?

Between April and June 2023, we started the construction of new BESS plants in several Italian regions, with a total capacity of 1.6 GW expected by the end of 2024. Many of these plants are located on the sites of old thermal power plants, and this is a virtuous example of the circular economy. Nor does innovation stop here.

What is a Bess system?

BESS systems are composed of electrochemical batteries, which come in various types. The most widely used technology on an industrial scale involves lithium-ion batteries. This is because of the great advantages they offer in terms of efficiency, durability and - increasingly - cost-effectiveness.
