By utilizing advanced tech solutions, such as Battery Energy Storage Systems (BESS), we can unlock the full potential of these resources. Bureau Veritas supports accelerated BESS installation deployment with dedicated solutions for project developers, Engineering, Procurement and Construction companies (EPCs), investors and lenders.

The project will be co-developed by W Solar, Qazaq Green Power--a subsidiary of Kazakhstan's sovereign wealth fund Samruk-Kazyna--and the Kazakhstan Investment Development Fund, with Masdar leading development efforts.

UAE-based renewable energy company Masdar has signed an investment agreement with its partners to develop a 1 GW wind energy project in Kazakhstan's Jambyl region. The project will include a 600 MWh Battery Energy Storage System (BESS). Construction is scheduled to begin by early 2026.

It is located in the Jambyl region of the country and also features a 600-megawatt-hour (MWh) Battery Energy Storage System (BESS). The 1GW wind project is being co-developed by W Solar, Qazaq Green Power (a Samruk-Kazyna Group company), and the Kazakhstan Investment Development Fund, with Masdar as the lead developer.
