

What does Bess stand for?

Portuguese multinational energy corporation, Galp and US-based energy storage provider, Powin have partnered to install a 5MW/20MWh utility-scale battery energy storage system (BESS) at Galp's solar power plant near Alcoutim, in the southern region of the Algarve in Portugal.

What is a Bess installation?

The BESS installation is a joint venture between Ardian's ACEEF and Lappeenranta Energia, a Finnish municipal energy company. The Mertaniemi project is expected to come online in the spring of 2025 and is located near the Mertaniemi power plant in Lappeenranta.

What's going on with Bess?

On the BESS side, system integrator Fluence deployed a 15MWh project in Terceira and a 16.4MWh one in Madeira, two of Portugal's islands, while developer and IPP Greenvolt is in the midst of commissioning a 5MWh one at a biomass plant in Coimbra, on the mainland.
