Photo by @trailwest\_wj. RV solar panel kits bundle the major components that you need to install a solar electrical system on your campervan or RV. For our purposes, we'll break these kits down into three categories: ...

When buying a portable solar panel two things need to be considered: the rating of the panel and if a charge controller is needed. When using a portable to augment your legacy rooftop system, it best to use a portable with the same wattage or is within 10 percent of each legacy solar panel output. Thus a 160 watt portable can be used with 170 ...
