

How much solar energy does Portugal produce?

In a bold announcement, Portugal recently surpassed its entire solar output from 2023 by September 2024, celebrating a record year for solar energy production. According to REN (Rede de Energia Nacional), the country generated more than 3.99 TWh of solar energy in just the first nine months, exceeding last year's total of 3.6 TWh.

Can I sell surplus solar energy in Portugal?

Yes, it is possible. The important thing is that you sell the surplus solar energy that exceeds your own use and that you don't install the panel just to sell it. The prices for surplus solar energy range between 4 cent and 8 cent in Portugal. It does not really compensate the investment.

Should I install a solar panel in Portugal?

It does not really compensate the investment. So you should only install the solar panel system based on your own consumption needs. It does make sense to install as well a battery. In Portugal you will need a lot of energy as well during the night. What are the requirements for selling solar energy?

How many PV projects are mapped in Portugal?

Silva launched the "PV Map" in March 2023. He already manually mapped more than 1,000 PV projects across the country, corresponding to roughly 60% of Portugal's total installed capacity, and is now looking for companies to volunteer information on projects not yet mapped.

We have more work to do, and that's just in Portugal... At the same time, we're hoping to establish communities elsewhere, particularly in Italy. We also have a team in the United States who are working on several energy community projects. Portugal is our sandbox. Here we'll test, and learn what to do before replicating in other countries.

Portugal is intensifying its commitment to renewable energy with the announcement of new incentives aimed at promoting solar panel installations and enhancing window efficiency in residential properties.

Boasting an average of 3,000 hours of sunshine per year, this area offers the perfect environment for maximum energy generation. Benefit from clean, sustainable energy while saving money. Get in touch with us today to learn ...
