

What is bluetti solar +?

BLUETTI Solar + is an innovative and cost-effective solution for integrating both solar and battery systems into your home at a price comparable to what our competitors charge for solar alone. We understand that the key to unlocking substantial long-term savings with solar lies in the effective combination of solar panels and battery storage.

Is bluetti solar + suitable for apartments or condos?

BLUETTI Solar + is ideal for houses that receive direct sunlight. Unfortunately, it's not suitable for apartments or condos. The system's compatibility also depends on the specific conditions of your roof. For more detailed information and to determine if your home is a good fit, we recommend consulting with our energy experts.

What is bluetti ep600?

BLUETTI is a leading provider of residential and portable energy storage solutions with patented technology and intellectual property rights. Its EP600 system is a safe, reliable and high-performance product that can store and release solar energy, provide off-grid power and interface with the grid.

Why did Ray David invest in bluetti ESS?

Mr. Ray David, a 44-year-old entrepreneur, invested in BLUETTI ESS to combat rising electricity costs. His home now operates independently, utilizing expandable storage capacity, reducing reliance on the grid. The protagonist, a homeowner, invests in BLUETTI ESS for energy independence.

What does a bluetti site technician do?

A BLUETTI site technician will review the design and handle the permitting and paperwork with the city. We'll let you know when everything is good to go. The installation takes about a day. Once completed, we'll schedule the city inspection. We work with your utility to get everything connected.
