Does Bosnia have solar power?

Bosnia's Foreign Investment Promotion Agency said it has successfully pitched the municipality of Grude to Norwegian renewables developer Greenstat. Bosnia and Herzegovina had around 53 MW of grid-connected solar at the end of 2021, according to IRENA. Image: NASA Goddard Space Flight Center/Flickr

Who is attracting foreign investment to Bosnia & Herzegovina?

The government agency responsible for attracting foreign investment to Bosnia and Herzegovina has successfully pitched the municipality of Grude to Norwegian renewables company Greenstat. Bosnia's Foreign Investment Promotion Agency (Fipa) said last week that the Bergen-based developer has started working on the 45 MW Petjnik solar plant.

Can solar power improve the lives of people in Sub-Saharan Africa?

The World Economic Forum's 2021 Energy Transition Index highlighted the potential of solar power to improve the lives of people in sub-Saharan Africa, where it says 44% of the population have no access to electricity. These three innovations could help make more widespread solar power a reality. 1. Solar power in the dark

To maximize your solar PV system's energy output in Bijeljina, Bosnia And Herzegovina (Lat/Long 44.7644, 19.2186) throughout the year, you should tilt your panels at an angle of 38°; South for ...

Last month, oil refinery Bosanski Brod announced that it will build four small-scale solar power plants, which should all be commissioned by the end of the year. Oil refinery has started the construction of a solar power plant with installed capacity of 1 MW, worth around a million euros. It already filed an application to

The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general public, and allows users to quickly obtain data and carry out a simple electricity output calculation for any location covered by the solar resource database.

To maximize your solar PV system's energy output in Zenica, Bosnia And Herzegovina (Lat/Long 44.2052, 17.9089) throughout the year, you should tilt your panels at an angle of 37°; South for fixed panel installations.

A group of investors from the Federation of Bosnia and Herzegovina (FBiH) is planning to develop a solar power plant in Ljubinja, located in the Republic of Srpska (RS), on an 85-hectare site. They are currently seeking a concession from the RS Government and have received positive initial feedback regarding their proposal.
