2 ???&#0183; It seems that solid state batteries are beginning to hit the street. I know of a company right now selling them but they are still quite expensive. But I have to imagine that the prices are going to come way down in short order as it seems that many competing companies are getting ready to &quot;spill&quot;,. So kinda feels like we need to &quot;wait&quot;,. So

The World Bank Group has approved plans to develop Botswana's first utility-scale battery energy storage system (BESS) with 50MW output and 200MWh storage capacity. The World Bank will support the 4-hour duration BESS via a loan of US\$88 million.
