

A properly designed solar swimming pool heater will heat your pool just as effectively as one that uses fossil fuels. On days that are warm enough to comfortably relax poolside, but not warm enough to swim, solar energy will heat your pool to a perfect temperature for swimming, so you can dive right in.

Sol-Tek Solar is excited to deliver an even better product and bigger savings with Solahart's improved 302J Series! This breakthrough in solar hot water offers greater reliability and performance over other competitive systems in the marketplace.

Solar water heaters concentrate the sun's thermal energy to heat water for industrial, commercial, and residential use. Types of Products. There are two main types of products: active and passive. Active solar water heaters have circulating pumps and controls. Passive products do not.

For over 50 years, SunValue Solar Pool Heating Systems have featured unique hexagon-shaped manifolds and reinforced ribs construction to deliver a sleek, lightweight, and high-efficient pool heating solutions. Supported by a 7-year limited warranty, our SunValue solar pool heating solution embodies environmental friendliness, roof
