

What is a Canadian Solar EP Cube?

The Canadian Solar EP Cube is a modular battery that can have up to six 3.3kWh modules connected together for 19.9kWh of storage capacity and 7.6kW of continuous backup power.

What is a EP Cube?

These clean energy market trends and advancements in solar energy generation spawned the creation of the EP Cube, the latest product from the global solar energy technology provider, Canadian Solar, Inc. (CSI). The EP Cube is a whole home residential energy storage system that is easy to install and cost-effective.

What is an EP Cube Solar System?

Simplicity The EP Cube is an all-in-one solution that houses a hybrid inverter and battery modules in the main system box. Almost all cables, connections, and other components are stored within the gateway unit and the inverter, making this design solar installer friendly.

How much energy can a EP Cube store?

The slim, sleek design includes battery modules weighing 70 pounds and EP Cube can be ground or wall-mounted, inside or outside, since it's weather-resistant and requires minimal space. The EP Cube's storage capacity spans 9.9 kWh to 19.9 kWh, with the ability to connect up to six units in parallel for 119.9 kWh.

Is the EP Cube fan cooled?

The EP Cube is also fan-cooled, so it has the flexibility to be installed wherever is convenient for the user, depending on the space they have available. **Longevity** The EP Cube is a plug-and-play energy storage system backed by a 25-year warranty.

What applications can the EP Cube support?

Flexibility The EP Cube is compatible with the power grid, existing PV systems, generators, micro-inverters, and EV chargers, allowing for more applications, including expanding energy storage capacity, home backup, and TOU.

The EP Cube hybrid inverter allows up to 16A per PV string current, and supports up to 4 MPPT connections,

enabling greater PV panel connectivity so as to transform more solar energy into electricity for energy storage. EP Cube helps you store electricity from the grid when the price is lower, reducing costs and realizing automatic storage.

--Canadian Solar Inc. today announced that it will present the new three-phase EP Cube and EP Cube Twin Peak at Intersolar in Munich, Germany, on June 19-21, 2024. This expansion of the successful ...
