

Will the European Union support a hydrogen project in Brazil?

"Together with President Lula of Brazil, we are announcing the European Union's support to build one of the biggest hydrogen projects in the world, in the Brazilian state of Piauí," she said, adding that this finance would be part of the EUR2bn (\$2.2bn) in Global Gateway funding pledged specifically to Brazil earlier this year.

How much does a green energy park cost in Brazil?

The Brazilian project, Green Energy Park Piauí, which already has an environmental licence, will be built in six stages at an estimated cost of EUR13bn (not including the renewables component), with the first green hydrogen and ammonia produced in 2028, and the full 10GW completed in 2035.

How much money has the EU earmarked for Green Energy Park?

However she did not give any indication of how much cash the EU has earmarked for the project, and the CEO of developer Green Energy Park (GEP), Bart Biebuyck, told Hydrogen Insight that the exact amount is still subject to discussion.

A 10GW green hydrogen and ammonia complex in Brazil is set to receive cash from the EU as well as its domestic government, European Commission president Ursula von der Leyen said in her address to the European Hydrogen Week in Brussels today (Monday).
