

Where can I learn more about brightnight power?

To learn more, please visit BrightNight, the next-generation renewable power producer built to deliver clean and dispatchable power solutions, today announced the successful closing of a \$440 million strategic equity investment from Goldman Sachs Alternatives.

Why should you choose brightnight & Cordelio?

Combined Expertise: BrightNight's proven expertise in the development, construction and operation of utility-scale solar and storage projects complements Cordelio's successful history of renewable power project execution and financing, in addition to Cordelio's expertise in wind energy for potential future multi-technology projects.

Who acted as a financial advisor for brightnight?

Jefferies LLC acted as sole financial advisor, and Weil, Gotshal & Manges LLC served as legal counsel to Goldman Sachs Alternatives. Latham and Watkins and PEI represented BrightNight in the corporate credit facility transaction. Norton Rose Fulbright served as Lender Counsel. About BrightNight

Situated on 7,000 acres across the Perry, Knott, and Breathitt Counties, the 810-megawatt Starfire project will transform one of the Midwest's largest coal mines into a clean renewable power project that meets the region's energy needs and provides dispatchable renewable power through energy storage systems.

Leasing your land for the development of a renewable power project is a great way to generate income, invest in your future, and maintain ownership of your property for future use. BrightNight is working with hundreds of landowners across the U.S. who are welcoming solar, storage, wind, and other advanced technologies onto their land for a ...
