Who is Martifer Renewables & Energy?

Martifer Renewables & Energy acts and positions itself as a developer of renewable energies in the 'wind and solar segment', mainly focused on developing wind and PV solar projects. This business area also includes the 'infrastructures for energy and industrial operation and maintenance segment', from conventional power plants to industrial units.

Where are Martifer Renewables based?

To date, we have already developed a significant number of projects in Europe, Australia, and North and South America. Currently, with offices in Portugal, Poland, Romania and Argentina, Martifer Renewables can bring to life a wide range of projects in the renewable energy sector.

What size projects does Martifer Renewables develop?

Over time, we have gained extensive experience in developing projects of different sizes. In particular, Martifer Renewables presents a portfolio of developed projects ranging from 0.6 MW to 1,000 MW. We are committed with success in each project, regardless of its size.

Exceeding expectations, Martifer is a synonym of quality, trust and differentiation in the solutions and services it provides to its clients. We deliver on time and work to exceed expectations. Our teams are solution-oriented, and proactivity and agility are what we focus on in each project.

Ocean Winds and Martifer Renewables & Energy have formed a strategic partnership to jointly participate in Portugal's first tender for offshore wind farms, set to take place this year.
