ROAD TOWN, Tortola, VI- The Solar Technology Energy Programme will officially launch in the Virgin Islands in 2025 when the first solar panels are installed, Premier and Minister of Finance Dr the Hon Natalio D. Wheatley (R7) has said.

The islands were part of the British colony of the Leeward Islands (1872-1960); they were granted autonomy in 1967. The economy is closely tied to the larger and more populous US Virgin Islands to the west; the US dollar is the legal currency. On 6 September 2017, Hurricane Irma devastated the island of Tortola.

As the leading solar provider on St. John, we are dedicated to making solar attractive and accessible to residents and business owners in the virgin islands. Starting with a professional installation, through performance monitoring and comprehensive warranties, our team ensures that your solar system is operating at peak efficiency throughout ...

In 1978, Sir Richard Branson purchased Necker Island, a beautiful getaway in the British Virgin Islands. What began with a dream of creating an environment where people could talk and relax soon became an

unparalleled luxury retreat. Now, Branson has a new dream: to transform Necker Island into one of the most energy efficient islands in the world.

To play it safe, we all traveled from New York to the British Virgin Islands (via Puerto Rico) a day before the start of our catamaran trip. ... Our catamaran had a water maker and solar panels, which helped reduce replenishing water and generator usage costs. Also, I would like to point out that tipping your crew, while not obligated, is ...
