???

Instagrid is making this transition possible, for the first time, by engineering battery systems which outperform the peak power of gas generators, making renewable energy accessible to businesses en masse.

Instagrid GmbH???2018?,?????????,Instagrid ????????,????????????????????

Instagrid GmbH announced the closing of a USD-95-million (EUR 87.3m) fundraising round with the proceeds to allow the German off-grid energy storage specialist to continue its growth by setting foot in North America.

Covestro and Instagrid conducted tests together to find a more sustainable material solution which reduces the carbon footprint of the portable power station and at the same time is flame retardant for increased safety.
