

Will a 120 MW solar plant be built in Yemen?

Masdar has signed a joint cooperation agreement with Yemen's Ministry of Electricity and Energy to build a 120 MW solar plant in Aden. It will be the country's first large-scale renewable energy project. Image: IFC, Al Kuraimi. Masdar, an Abu Dhabi-based renewables developer, is set to build a 120 MW solar plant in Yemen.

Which country has a solar power plant in Yemen?

Loading... The UAE capital, Abu Dhabi, witnessed the signing of a joint cooperation agreement between the Ministry of Electricity and Energy in Yemen, and the Abu Dhabi Future Energy Company, Masdar, to provide the interim capital, Aden, with a solar power plant with a total capacity of 120 megawatts.

What is a solar project in Yemen?

The deal includes the construction of transmission lines and transformer stations. The solar project will be built in Aden. The 120 MW plant will be the "first and the largest strategic project to generate electricity through clean and renewable energy" in Yemen, according to the Yemeni Energy Minister Manea bin Yameen.

How much solar power does Yemen have?

According to the International Renewable Energy Agency (IRENA), Yemen's cumulative renewable capacity was 253 MW at the end of 2021, all from solar. Reports from local NGOs and the Ministry of Electricity and Energy put the country's total installed solar capacity between 300 MW and 400 MW in 2018.

Why are people moving to solar power in Yemen?

The migration to solar power is part of what researchers say is an energy revolution in the country of 28 million, where the electric grid has been decimated by fighting. More than 50 percent of Yemeni households rely on the sun as their main source of energy, and solar arrays power everything from shops to schools to hospitals.

How much does a solar system cost in Yemen?

Rassam paid about 50 million Yemeni rials (around \$90,000 based on the unofficial market exchange rate) for his system, which is considered large by local standards. The average cost of an array is around \$10,000. Rassam financed the solar panels with a loan from Al Kuraimi Islamic Bank, one of the country's largest private lenders.

New solar projects are being considered after the Saudi Development and Reconstruction Programme for Yemen, Riyadh-based organization The Arab Gulf Programme for Development (AGFUND), and Yemen's Selah Foundation for Development announced at the start of 2022 a USD 2.1-million joint project that aims to deploy renewable energy in Yemen.
