Wide experience in the industry, land supply, relationship and work with the state. A perfect combination of global experience and expertise to further focus on technological advancement. Surveillance and monitoring of systems.

Why is the market for distributed solar PV growing in Bulgaria?

As a result, the market for distributed solar PV in Bulgaria is starting to grow. Remarkably, the growth of the market is occurring despite the lack of a clear policy and regulatory framework, and in spite of the presence of many administrative and tax-related barriers.

Should Bulgaria Invest in solar energy?

This approach risks saddling the country with outdated infrastructure as well as an increasingly uncompetitive energy system. It is now economic for commercial and industrial customers in Bulgaria to invest in solar PV projects, without subsidies and without government incentives.

Should Bulgaria establish a public registry of certified solar PV installers?

Bulgaria should establish a public registry of certified solar PV installers similar to those found in other markets around the world. Installers applying to be on the list would have to pay a fee to help offset the costs of certification.

What is Bulgarian Photovoltaic Association?

Future is here! In urban environment, transport, home and school... photovoltaic energy is part of our everyday life. Bulgarian photovoltaic association is a non-profit organization unifying more than 400 companies from the renewable energy sector in Bulgaria.

What is the biggest solar PV plant to be built in Bulgaria?

This is also one of the biggest solar PV plants to be constructed in Bulgaria in recent years. With the solar PV plant, Aurubis Bulgaria will save some 11.700 MWh per year from grid electricity consumption (sufficient for approx. 12.000 households), which will cover an average of 2.5% of the electricity needs of its smelter facility.

2.3.1 Figure 6 shows the areas covered by the three electricity distribution companies in Bulgaria: CEZ, EVN, and Energo-Pro.
