Ecosun Aruba works with the very highest quality materials. We only use well known and reputable brands for our panels and inverters. Furthermore, all our solar panels are certified for usage in salty and windy environments like we have on Aruba. But even our cables and connectors are carefully chosen for their quality. We want our systems to last.

How to call the United States from Aruba: Buying a sim card and calling the United States is easy and cheap. Dial 001 followed by the area code plus the phone number. Making a call back home will cost you around \$0.37 (instead of \$2-\$3) for one minute this way. Buying a local sim card is way cheaper than keeping your own sim card.

These include the Solar Generation Project, which is hoping to supply 10 percent of Aruba's electricity by 2020. The project is installing solar panels on the roofs of schools and other public buildings, as well as on the ground in specially designated solar parks. Embracing Renewable Energy: Aruba's Goal. Aruba's commitment to embracing ...
