

How to increase solar energy in Cameroon?

In order to enhance solar energy in Cameroon, the government recently signed an agreement with China to carry out feasibility studies aiming at installing several light points in Yaounde. Recently, Cameroon obtained eKiss (energy-keep it simple and safe) mobile off-grid photovoltaic systems from Antaris Solar.

Does Cameroon have solar energy?

During the last few years, several studies have consistently established that the entire territorial distribution of Cameroon is endowed with a great potential of solar energy, noticeably with about 900 trillion kWh of solar energy reaching its land per annum.

Why is solar energy a problem in Cameroon?

The solar energy is at pilot stage now in Cameroon. There are several issues that are hindering the process. The Government has not taken necessary steps to enhance the sector. This may be due to the high capital cost of solar technology. There is also lack of sensitization by the government towards the public on the benefit of solar energy.

Are solar power plants generating electricity in Cameroon?

The solar power plants have been completed in phases generating electricity throughout 2022 and are now fully completed. There have been reports of significant improvements of electricity supply in the northern parts of Cameroon. Regions that fall under the Northern Interconnected Network were prone to experiencing power outages.

Can solar home systems connect to a dc microgrid in Cameroon?

Cameroon 21st December 2021 - Solarworx has expanded its pilot program for interconnecting Solar Home Systems to a DC Microgrid to Cameroon.

Does Cameroon have a stable electricity supply?

There have been reports of significant improvements of electricity supply in the northern parts of Cameroon. Regions that fall under the Northern Interconnected Network were prone to experiencing power outages. Today we are proud to say that they have more stable power in the country courtesy to our rapidly deployable leasing solution.

The company has signed two new lease agreements with ENEO, a partially state-owned electricity company in Cameroon, to expand its Maroua and Guider projects, which it commissioned last September.

Green Trading Enterprise is the best solar equipment provider in Cameroon. Their team executed a lot of professionalism when contracted with us. They were timely in installing and setting up our solar systems and also patiently walked us through the usage, answering all questions and ensuring that everyone was versed with

operating the systems

Release entered into a lease agreement with ENEO, an electricity company, in 2021 to deliver two solar hybrid and battery storage plants that have a combined capacity of 36MW solar and 20MW/19MWh of storage. The plants are located in Maroua and Guider, in the Grand-North Cameroon.

According to our sources, in addition to increasing the installed production capacity in the northern part of Cameroon, the Guider and Maroua solar plants will help save XAF7 to 8 billion in fuel costs every year since the thermal plants operating in that ...
