

# Can I call the police if my photovoltaic panels are stolen

Can solar panels be stolen?

Yes, solar panels can be stolen. Theft of solar panels has become quite popular, and the culprits sell them on the internet for less than 10% of their worth. You can protect your solar panels from becoming the next victim by installing motion-detecting lights around them.

What should I do if someone steals my solar panels?

For safety's sake, should you be in the unfortunate position of hearing someone scrambling on your roof late at night, don't confront them. Call the Police. There is no way to stop someone who has a strong determination from stealing your panels. Most solar panel thefts are opportunistic.

How to protect solar panels from theft?

You can use mechanical locks on the mounting equipment to prevent the panels from being easily removed. The locks should be custom-designed for solar panel installation and tamper-resistant. Installing an alarm system that triggers a loud noise if the panels are tampered with can help deter potential thieves.

Are solar PV projects causing theft and vandalism?

The capital costs of solar PV projects can be enormous, running up into millions of dollars and with parks taking years to realise. Given this, developers want to make the most out of their investment but an increasing practice is threatening this return: theft and vandalism of solar technology.

Do solar panel security screws prevent theft & vandalism?

Solar panel theft and vandalism have been persistent concerns for residential and commercial installations. The deployment of solar panel security screws is a potent deterrent against theft, as they are designed to prevent easy access to the panels.

How do I recover stolen solar panels?

Another effective way to recover stolen solar panels is to make your panels easy to track. GPS tracking devices are used in many industries to prevent theft, most notably in motor vehicles. GPS tracking technology is extremely accurate and has been found to be an extremely effective way to recover stolen solar panels.
