

Can a locker be installed in the bathroom ceiling

Should you install a drop ceiling in your bathroom?

Installing a drop or suspended ceiling in your bathroom can completely upgrade the space by hiding unsightly plumbing, improving access, acoustics and even letting you add some style. In this comprehensive guide, I'll share everything I've learned from successfully installing drop ceilings in bathrooms of all sizes and styles over my career.

What to put on ceiling above shower?

So, during your next bathroom remodel, ask yourself what to put on ceiling above shower. You can put mold-resistant paint, fiberglass panel, PVC, waterproof wallpaper, fiberglass reinforced panels (FRP), and cement boards on your ceiling above your shower. Other options are metal ceiling tiles, drywall and green board, gypsum, and glass.

Should you tile a bathroom ceiling?

If your bathroom is more of a wet room, tiling the ceiling is a brilliant way to combat issues caused by humidity when using other materials like paint or wallpaper. When choosing bathroom tile ideas for the ceiling, be mindful of the fact that large heavy tiles will be very difficult to install.

How to cover a bathroom ceiling with tiles?

Cement board is the perfect bathroom ceiling material for the wet segments which you wish to cover with ceiling tiles. When you install cement boards as a backer material, it won't get damaged by moisture. As an additional step, you can cover the framing behind the board with a moisture barrier, such as plastic sheeting. 3. Tiles

Should you overlook a bathroom ceiling?

By overlooking the bathroom ceiling, you are essentially neglecting a fifth wall that you could be using to impress. You do need to be mindful of moisture. Some materials simply aren't durable enough to cope with the humidity of a bathroom.

Are ceiling ideas a good idea for a bathroom?

You do need to be mindful of moisture. Some materials simply aren't durable enough to cope with the humidity of a bathroom. Fear not, ceiling ideas can be both beautiful and functional- even in the wettest room in the house - so you won't have to redo the ceiling again every few months.
