IRELAND - Power management company Eaton has completed the acquisition of Royal Power Solutions, a U.S.-based manufacturer of electrical connectivity components used in electric vehicle, energy management, ...

(CNS): Richard Hew, the president and CEO of CUC, Grand Cayman's electricity provider, has warned that the island is facing a power generation crisis because the company has surpassed its ability to meet peak demand with its existing fixed diesel generators and is currently resorting to temporary, leased machines to meet it.

Today, Power Solutions International, Inc., reported strong profit for the three months ended September 30, 2024, with net income of \$17.3 million and diluted earnings per share of \$0.75, compared to net income of \$7.8 million and diluted earnings per share of \$0.34 for the third quarter of 2023.

Solar might be a solution for the island, but you would need large expanses of land to put up a solar farm - that may be available out on the eastern side of the island, but it would be a big capital cost that the island doesn't seem to have the appetite for, to-date.

Islands like Grand Cayman in the Caribbean demonstrate the importance of energy independence at the forefront of addressing climate change. Based on work with other microgrids around the world, Wärtilä has ...

Islands like Grand Cayman in the Caribbean demonstrate the importance of energy independence at the forefront of addressing climate change. Based on work with other microgrids around the world, Wärtilä has gained insight on how to enable clean, optimised power systems that provide industry-leading energy and environmental benefits, improved ...

The power plants on Grand Cayman are the primary sources of electricity for the islands, while the plants on Cayman Brac and Little Cayman provide backup power in case of outages. Overall, the electricity supply ...
