

OG-500 certification provides one means of complying with the requirements in the ICC 900/SRCC 300 standard and OG-300 program for solar water heating systems that solar tanks be listed. And their standardized performance ratings provide the key performance values designers need to implement them successfully in many different types of indirect ...

OG-300 No. 30004224 | Solar Rating & Certification Corporation PARTS LIST: Part Quantity Evaluated Component Collector Option 1 2 Sun Bandit, LLC. Model Omega (OG-100 10001952) Collector Option 2 2 Sun Bandit, LLC. Model SBES-Collector Model B (OG-100 10002040)

ICC-SRCC maintains compliance assessment marks for its accredited programs. Listees with current certifications and listings are authorized to display them on marketing materials, websites, and product labels. This webpage summarizes ICC-SRCC's marks and how they may be used. These requirements are also summarized in the Usage Guide for ICC-SRCC Marks. Certified ...

The Solar Rating & Certification Corporation (ICC-SRCC(TM)) is the leading certifier and standard developer for solar heating & cooling products in North America. Our certifications are designed to help manufacturers comply with regulatory and incentive program requirements in the United States, Canada, Mexico and Caribbean Region.

Solar Water Heating Systems The ICC-SRCC OG-300 Solar Water Heating System Certification Program provides proof of compliance for solar water heating systems to the current ICC 901/SRCC 300 standard. This standard is widely referenced by building codes, standards and incentive programs throughout North America. U.S. Federal tax credits, EPA ENERGY ...

The Solar Rating & Certification Corporation (ICC-SRCC(TM)) is the leading certifier and standard developer for solar heating & cooling products in North America. Our certifications are designed to help manufacturers comply with regulatory and incentive program requirements in the United ...

The Solar Rating & Certification Corporation (ICC-SRCC) is an ISO/IEC 17065-accredited third-party certification body specializing in solar heating and cooling products. ICC-SRCC's certifications, ratings and listings are accepted throughout North America.

ICC-SRCC offers listings for all major codes and standards applying to solar heating & cooling products in North America. ICC-SRCC listings make it easy for solar product manufacturers to demonstrate code compliance. The program is designed specifically for the solar industry, from the experts at ICC-SRCC who know the technology and the industry.

When manufacturers apply for a new ICC-SRCC certification, they provide basic information needed to get the process started. But once we get underway, we will need more detailed information about your product to confirm that it complies with standards and to generate performance ratings (if applicable).

ICC-SRCC maintains and publishes the following ANSI-approved consensus standards with the International Code Council (ICC). They form the basis of the OG-100, OG-300 and OG-400 certification programs. The current editions of the standards were approved and released in December, 2020. Online versions of the standards are available for viewing or purchasing. ...

The Solar Rating and Certification Corporation (SRCC) plays a vital role in ensuring the standardization and certification of solar thermal products and systems. Through its rigorous certification programs, such as OG-100 and OG ...

OG-300 No. 2011095B | Solar Rating & Certification Corporation PARTS LIST: Part Quantity Evaluated
Component Collector Option 1 2 Alternate Energy Technologies, LLC Model MSC-32 (OG-100 10001938)
Solar Tank 1 American Water Heater Model SE62-119R-045S (450 L volume) IDENTIFICATION:

- Today the International Code Council announced that the Solar Rating & Certification Corporation (ICC-SRCC) is joining ICC Evaluation Service, LLC (ICC-ES). With the move, all certifications presently conducted and maintained by ICC-SRCC, including the certifications for the Small Wind Certification Council (ICC-SWCC), will be coordinated ...

Codes and Standards References The ICC/SRCC standards for solar heating and cooling equipment are referenced in many building codes. These codes require compliance with the standards, which can be shown using SRCC's various certifications. See below for some examples and more information. This list is not exhaustive, and many individual states that use ...

The Solar Rating and Certification Corporation (SRCC) plays a vital role in ensuring the standardization and certification of solar thermal products and systems. Through its rigorous certification programs, such as OG-100 and OG-300, SRCC promotes reliable and efficient solar technologies, providing consumers with confidence in their investment.
