GuineaSolar is a turnkey Solar Power Systems integrator. At GuineaSolar we consider everything - from the environment right through to your operational costs and bottom line. We focus on complete solar PV plants that are custom ...

Most places, a solar company will come out for a free survey and quote. Most of them can tell you about any tax breaks or grants that will reduce the cost, as well. Solar may be a good choice for you, but fully off grid requires batteries, which are not cheap. Rooftop solar also put more shade on the roof, reducing AC requirements a bit.

Hi, After spending a lot of time searching, i'd like to add some batteries(15kWh) to my current 6.4KW solar system, that's been running for a bout 2 years now. Using about 60kWh per day, my system is producing about 40-45kWh daily. 16 \* TrinaSolar 405W 6KW Huawei sun2000-6ktl-11 / Hybrid Grid...

6 ???&#0183; To successfully charge your new battery a charger that allows user setting of charge voltage could be important. A fixed 14.6 volt charger will usually cause battery overvolt ...

On a good day, I can be totally self sufficient in power consumption. In other words, normal use means that at this time of year on a sunny day, solar and battery can give all the energy I need for 24hrs. The winter will obviously be different - I won't have enough solar to run the house or charge the batteries much.
