

COGEN Europe is a European advocacy group based in Belgium that promotes the practice of cogeneration in energy production. The group acts as a liaison between its member companies and European Union energy organizations and committees.

COGEN EUROPE calls upon the incoming European policymakers to support the development of an increasingly integrated, efficient, resilient, and decarbonised energy system that meets the needs of Europe's citizens, communities, businesses and industries. Cogeneration - as the most efficient and reliable way to thermally generate electricity

COGEN Europe's mission is to work with EU institutions and stakeholders to shape better policies and eliminate administrative, regulatory and market barriers to the wider use of cogeneration in Europe. We believe a reliable, affordable and climate-friendly energy system can be built with the following collaborative efforts:

CHP Market Developments in Europe (2020-2021) 10 Growth No change Decline No data CHP Installed Capacity CHP Electricity Production ... COGEN Europe is a European advocacy group based in Belgium that promotes the practice of cogeneration in energy production. The group acts as a liaison between its member companies and European Union energy organizations and committees. The managing director of COGEN Europe is also the coordinator of the eneld project.

COGEN Europe has built up an extensive network of partners in Brussels and beyond, including numerous European associations with whom we share information and develop joint activities. Through all the initiatives that we support, we pursue the promotion of an efficient, resilient, decentralised and decarbonised European energy system.

COGEN Europe is the European Association for the Promotion of Cogeneration. We work with the EU institutions and various stakeholders to promote policies and legislation that recognise the valuable role cogeneration technologies have to play in the framework of efforts to boost energy efficiency and reduce emissions.

COGEN Europe, the European Association for the Promotion of Cogeneration, is the cross-sectoral voice of the cogeneration industry. Its mission is to work with EU institutions and stakeholders to shape better policies and eliminate administrative, regulatory and market barriers to the wider use of cogeneration in Europe.
