

COGEN Europe seeks to influence EU policies and legislation with a special focus on energy, climate and environmental issues. We share our policy positions with policymakers, stakeholders and the wider public via our position papers and other publications. Our papers reflect the consensus view of our members spanning the entire energy supply chain.

That leaves many leading European industries, such as the chemical, food and drink, ceramics, pulp and paper and alumina sectors to name a few, with limited choices when seeking funding or getting loans to accelerate their energy transition. Indeed, they need a lot of energy, in particular continuous high temperature heat supply for 24h/7 ...

A study by Artelys finds that cogeneration is a primary enabler to achieve carbon neutrality in Europe by 2050. Realising the cost-effective potential for cogeneration in all sectors will maximise energy efficiency and integration of the European energy system at the lowest cost, while bringing key benefits to end consumers.

COGEN Europe | 1.927 volgers op LinkedIn. COGEN Europe is the European Association for the Promotion of Cogeneration. Cogeneration or Combined Heat and Power (CHP) is the most efficient way to deliver heating, cooling and electricity. It is based on the simultaneous production of electricity and thermal energy, both of which are used.

COGEN Europe | 1922 seguidores en LinkedIn. COGEN Europe is the European Association for the Promotion of Cogeneration. Cogeneration or Combined Heat and Power (CHP) is the most efficient way to deliver heating, cooling and electricity. It is based on the simultaneous production of electricity and thermal energy, both of which are used.

Fuel cell micro CHP (&#181;CHP) is an already available highly efficient distributed energy solution for heat and power generation near the point of consumption. Small units are typically used for ...

COGEN Europe is a European advocacy group based in Belgium that promotes the practice of cogeneration in energy production. The group acts as a liaison between its member companies and European Union energy organizations and committees. The managing director of COGEN Europe is also the coordinator of the eneld project.

COGEN Europe - The European Association for the Promotion of Cogeneration Gulledele 98 &#183; B-1200 Brussels &#183; Tel +32 2 772 82 90 &#183; info@cogen &#183; 3 Discussion Cap-setting The European Commission has taken a much more active role in setting upper limits to national caps for the second phase of the ETS (2008-2012).

Since the 1993, COGEN Europe has been developing a strong presence in Brussels and is now the unrivalled organisation for cogeneration outreach, advocacy and communication with the European institutions. We are a membership-based association originally founded by national associations, and today supported by a string of companies. ...

COGEN Europe, the European Association for the Promotion of Cogeneration, is the cross-sectoral voice of the cogeneration industry. Its mission is to work with EU institutions and stakeholders to shape better policies and eliminate administrative, regulatory and market barriers to the wider use of cogeneration in Europe. ...

COGEN Europe, the European Association for the Promotion of Cogeneration, is proud to welcome the Cogen Ukraine Decarbonization Association as a new member (as from 1 December 2023). During a difficult time for Ukraine - and in the context of ongoing Russian military attacks on the country's energy system - the Cogen Ukraine ...

The cogeneration sector is committed to the creation of a resilient, decentralised and carbon neutral European energy system by 2050 with cogeneration as its backbone. Cogeneration or Combined Heat and Power (CHP) is a key enabler to achieve carbon neutrality in Europe by 2050. Prioritising cogeneration for thermally generated heat and power

COGEN Europe calls for a "smart approach" to reducing greenhouse gas emissions from homes and other buildings - COGEN Europe (15 December 2021) Energy Performance of Buildings Directive - European Commission. European Green Deal: Commission proposes to boost renovation and decarbonisation of buildings - European Commission (15 ...

COGEN Europe | 2.006 follower su LinkedIn. COGEN Europe is the European Association for the Promotion of Cogeneration.
