

La centrale solaire photovoltaïque d'Ayem-Plaine qui s'étend sur 251 hectares de terrain, permettra de satisfaire deux impératifs : la transition vers l'utilisation d'énergies renouvelables engagée par le Gabon et l'accroissement de l'offre énergétique pour la ville de Libreville et ses environs.

The Ayem-Plaine Solar Power Station is a proposed 120 megawatts solar power plant in Gabon. The power station is under development by Solen, an independent power producer (IPP). The solar farm will be developed in two phases of 60 megawatts each.

The Ayem-Plaine solar photovoltaic plant is only the first step in an ambitious plan to reach 120 MW in the long term, aimed at limiting dependence on fossil fuels. It reaffirms Solen's commitment to Gabon's economic development.

Solen SA Gabon had signed a framework agreement with the government of Gabon back in March 2022 to construct a 120-megawatt peak (MWp) solar photovoltaic project in Ayem-Plaine, a region about 30 kilometres from the capital Libreville.

Solen SA Gabon, a subsidiary of Solen Renewable Dubai, has just launched the construction of the Ayem-Plaine photovoltaic solar power plant, a locality located some thirty kilometres from the capital Libreville. The future facility will have a ...

The Gabonese authorities have just signed a framework agreement for the construction of a 120 MWp solar photovoltaic plant. The facility, which will be located in Ayem-Plaine, will be commissioned in two phases for the public power company.

The Ayem-Plaine 120 MW solar plant, Central Africa's largest, is set to be operational by October, boosting Gabon's renewable energy transition and increasing Libreville's power supply.

Solen SA Gabon, a subsidiary of Solen Renewable Dubai, has just launched the construction of the Ayem-Plaine photovoltaic solar power plant, a locality located some thirty kilometres from the capital Libreville. The future facility will have a capacity of 120 MWp.

The Gabonese authorities have just signed a framework agreement for the construction of a 120 MWp solar photovoltaic plant. The facility, which will be located in Ayem-Plaine, will be commissioned in two phases for ...

Gabon has opened its first utility-scale solar plant - the largest in Central Africa. Developer Solen SA Gabon

has said it aims to expand the Ayem project's capacity to 30 MW to power more...

The Ayem Solar Power Station is a proposed 120 megawatts solar power plant in Gabon. The power station is under development by Solen, an independent power producer (IPP). The solar farm will be developed in two phases of 60 megawatts each. The energy generated at this power station is expected to be sold to the Energy and Water Company of Gabon (Société d'Energie et d'Eau du Gabon) (SEEG), for distribution in Libreville, the capital city of the country and its surro...

The Gabonese government authorities have signed a framework agreement with Solen for the construction of a 120 MWp solar PV plant. The solar power facility is planned to be located in Ayem Plaine, Estuaire province.

La centrale solaire photovoltaïque d'Ayem Plaine qui s'étend sur 251 hectares de terrain, permettra de satisfaire deux impératifs : la transition vers l'utilisation d'énergies ...

Solen est une société internationale ayant des opérations au Gabon. Elle agit en qualité de producteur d'électricité indépendante et se concentre sur des marchés africains émergents, en accordant une attention particulière aux besoins énergétiques des infrastructures industrielles et nationales essentielles.
