

Located in the city of Barranquilla in northern Colombia, this project will consist of a 45 MWh lithium-ion battery energy storage system and is expected to reach commercial ...

Canadian Solar has won the rights to develop a 45MW battery storage project in Colombia. The project was awarded in a public tender launched by Colombia's Ministry of Energy and Mines, via its affiliate UPME, the Mining and Energy Planning Unit.

Utility and independent power producer (IPP) Celestia has deployed a solar co-located lithium iron phosphate (LFP) BESS in Colombia. Celsia has deployed the battery energy storage system (BESS) at its 9.9MW Celsia Solar Palmira 2 farm in Valle del Cauca to help increase the generation capacity of the plant, shifting generation into the evening ...

Colombia's national mining and energy planning unit UPME last week finalised the tender process for the full delivery of a 45-MW battery energy storage system (BESS), awarding the project to the Colombian affiliate of Canadian Solar Inc (NASDAQ:CSIQ).

In 2021, Energy-Storage.news reported on Colombia's first ever battery storage tender, from the Ministry, which was won by solar PV and battery storage firm Canadian Solar. The project at a mine was said to be coming online in June 2023, although no announcement has since been made.
