

Where is the largest solar farm in British Columbia?

Image: SunMine solar array. Photo: City of Kimberley For over a century, the landscape north of Kimberley, B.C., was used for intensive industrial hard-rock mining -- but now it's home to the largest solar farm in all of British Columbia.

Does British Columbia have solar energy?

Solar energy has taken off in many parts of the world, but has been slow to catch on in British Columbia, mainly due to a lack of power production incentives.

How did EcoSmart help Teck & Kimberley?

EcoSmart created the initial concept outreaching both Teck and the City of Kimberley to form a partnership for bringing the project to successful completion. We provided also the following services:

SunMine was the first large-scale solar farm built in western Canada. It is located on the Teck Mine brownfield site in Kimberley BC. at 1,200 m altitude near the Rockies. This pioneer project was developed through a partnership between Teck, the City of Kimberley and EcoSmart. The electricity generated is sold to BC Hydro via a long-term ...

At Dandelion Renewables, we firmly believe that solar power is vital for building a self-sustainable community. Some of our notable BC solar projects include ground-mounted solar, rooftop solar, grid-tied solar, off-grid solar, and solar-ready. We like to ...
