

Patented MIXTECH EMX starting and ECL extended cycle hybrid commercial starting batteries with countermeasures against acid stratification, the #1 cause of premature performance loss and battery failure in the commercial truck industry.

Our heavy-duty, commercial-grade batteries are built for superior performance and increased cycling in challenging environments. PowerFrame® grid technology provides longer life, corrosion resistance and up to 70 percent better electrical flow. In addition: Maintenance-free vents increase battery life and prevent corrosion.

commercial deep cycle batteries produced in standard Battery Council International group profiles for voltage, electrical capacity and physical dimension. Crown Battery's innovative and proven deep cycle product design makes it the battery of choice for many tough commercial battery applications, including commercial floor care and aerial

Product types: lead acid batteries, automotive starting batteries, marine batteries, industrial batteries, solar batteries, DC to AC power inverters, rechargeable batteries, deep-cycle batteries, AGM batteries. Address: Venezuela ; Web Site:

Turn to East Penn for best selection to meet the rigorous demands of commercial starting, cycle service, and deep cycle auxiliary power. Heavy-Duty Trucks Our flooded and AGM battery solutions are designed to deliver first-class, heavy-duty power that covers the needs of large fleet operations to individual owner-operators.
