Do I need a sunny Portal account to use ennexos?

Until now, it was necessary that users already have a Sunny Portal account before they could be given access to a site. That was complicated. From now on, you can invite new users to the ennexOS platform, both directly during the initial site setup and from the user administration of a site. Introduction of user roles

Does ennexos transfer data from smart connected to Sunny portal?

No. All settings such as additional users, reports or settings for Smart Connected will be transferred to the Sunny Portal powered by ennexOS. Energy data over the entire life cycle of the system is also completely transferred. From the time of migration, only the performance curves of the last 60 days are transferred to the ennexOS platform.

What's new at ennexos sunnyportal?

An all-new website with updated aesthetics and functions is now available, at EnnexOS SunnyPortal. Here's what you need to know! Starting October 16th, 2023, SMA automatically migrated solar systems with SunnyBoy -series inverters from the old website to the new EnnexOS platform.

Can webbox data be copied in the ennexos portal?

Data of WebBox plants from the Classic Portal can be copied in the ennexOS portal, if instead of the WebBox a EDMM (and COM GW) is implemented. Support of large plants with more than one Data Manager M within one plant: The EDMM supports up to 50 devices.

Is sunny portal a reliable solar inverter Monitoring Platform?

For years, premier solar inverter manufacturer SMA has offered its monitoring website, Sunny Portal "Classic", and over time it has proven to be a reliable platform, but the design is pretty out-of-date. Many customers (and installers) wished more advanced insights were available, and finally our wait is over.
